Our Story:

Matthew Davenport is 33 and lives in a retirement home. Once a promising hockey player, now sidelined by a traumatic brain injury, Matthew finds comfort among the elderly residents he calls family. But when an ambitious new director tries to force him out, a behavioral therapist, Adeline and a spirited service dog named Chief arrive sparking unexpected mischief, healing, and a journey toward self-discovery.

Set in a scenic Michigan facility, *Sit Stay Heal* is a heartwarming indie movie about second chances, unlikely friendships, and the beauty of finding purpose at any stage of life. This is a story of quiet resilience, memory, and love told with humor and emotional depth.
